

## **Luigi Pintacuda**

Luigi Pintacuda (1979) is PhD in Architecture and Urban Studies (IUAV, Venice, 2012), earlier he was graduated in Architecture (Palermo, 2004). Following his research activities go on through teaching collaboration, tutoring and teaching in courses and workshops. He was founder of “Studio 3813” (Palermo, 2012) works on architecture, design and visual field.

His way of doing research does not miss the conduct of the profession: he has always carried out professional works believing they are the right completion of research. His profile can be considered humanistic/artistic, facing the architect/visual artist’s work at 360°: from graphics to video, from buildings to city. He considers those inseparable aspects of the architectural/artistic work even more today that in the past.

His research on Bucharest urban phenomena was awarded with the 1st prize at “Essay Contest - East Centric Triennale” (Bucharest, 2013) and selected as finalist at “Young critics - Architects meet in Fuoribiennale” (Venezia, 2014).
