

CONSTANTIN GORCEA

In 1985, he graduated from the "Ion Mincu" Institute of Architecture in Bucharest.

Between 1985-1991, he functioned as architect at the Design Center of Suceava County, and as Chief of architecture department after 1989.

Between 1991-1993, he undertook postgraduate studies at the Ecole d'Architecture de Paris-Belleville and worked in architectural agencies *AARD* and *Remy Butler* in Paris. In 1994, he co-founded the AGD architectural design office in Suceava and has been acting as its President ever since.

His projects (www.agd.ro), awarded by professional distinctions and presented in magazines and exhibitions of architecture, manifest a constant preoccupation and cultural vision on architecture.

He is member of the Chamber of Architects in Romania (OAR) and President of the North-East branch, member of UAR, RUR and certified specialist for historic monuments.

Having a permanently divided activity between design process and activating in professional organizations and committees, he has contributed greatly to the promotion of cultural projects, such as the complex project Center of architecture, urban culture and landscape, *Water Plant* (www.uzinadeapa.co), awarded work at BNA-2014 at section for heritage architecture.
